

# Computing Vocabulary

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1	alert device log in avatar log out file name notification private button icon menu password tools save search  criteria sort grouping algorithm	code computer debug instructions program algorithm	action coding event debug algorithm command execute background	algorithm challenge direction route instructions undo command left right unit	collect data compare pictogram record results title	computer technology
Year 2	display internet sharing email attachment digital footprint search engine	calculations cell row column data drag table graph spreadsheet equals total	object run test predict scale properties scene sequence sound click swipe text	pictogram question collate binary tree data avatar database	impressionism palette pointillism surrealism share template	concept map quiz narrative node non-fiction animation presentation audience

<p><b>Year 3</b></p>	<p>appropriate/ inappropriate blog spoof personal information reputable reliable internet permission verify vlog website analysis simulation modelling evaluation decision</p>	<p>table bar graph line graph pie chart budget equals range rows columns formula</p>	<p>event flowchart implement input interval nesting object predict run properties repeat scene sequence test timer turtle</p>	<p>binary tree database branching database debug axis chart tally sort investigate</p>	<p>posture typing space bar keys  address email attachment communication inbox draft compose contact</p>	<p>analysis simulation modelling evaluation decision</p>
<p><b>Year 4</b></p>	<p>adfly collaboration digital footprint plagiarism cookies malware ransomware citation copyright phishing spam virus watermark  balanced view Easter eggs key words reliability results search engine</p>	<p>repeat grid prediction procedure</p>	<p>action background command execute alert button algorithm code blocks design</p>	<p>animation pause onion skinning frame stop-motion</p>	<p>components cpu graphics hard drive input motherboard network output peripherals software ram  campaign font format genre opinion reporter viewpoint</p>	<p>bpm melody rhythm dynamics pitch tempo synths harmonious pulse texture</p>

<p><b>Year 5</b></p>	<p>citation copyright identity theft PEGI rating password collaboration malware personal information reliable ownership phishing spoof validity</p> <p>concept map node connection</p>	<p>budget model expenses format formula hypothesis profit total</p>	<p>event nesting function system properties selection sequence simplify</p>	<p>arrange collaborative field avatar group database record sort statistics search</p>	<p>2d 3d computer-aided design pattern fill brief points net template</p>	<p>accelerator crocodile clip gestures light emitting diode logic selection sensor simulation variable pins variable</p>
<p><b>Year 6</b></p>	<p>data analysis location sharing print screen screen time inappropriate PEGI rating spoof secure</p> <p>hub switch network wide area network local area network World Wide Web router Wi-Fi</p>	<p>spreadsheet formula budget format chart</p>	<p>function procedure properties launch predict selection simulation tab timer variable</p>	<p>approval archive post vlog blog commenting</p>	<p>audience audio case-sensitive cloze participants preview quiz survey</p>	<p>base 2 bit digit integer switch base 10 transistor byte</p>
